

Ultra•Form™ FLOOR MATE PADS

Increase Patient Safety with Healthcare Solutions that Work

Ultra•Form Floor Mate Pads are a cost effective product for use with Low Beds. They provide a firm support surface to be placed beside the bed to create a safer environment for the at-risk patient. From a wheelchair, residents can easily roll the front wheels onto the surface. This places the resident closer to the bed for a safer exit from the wheelchair. Floor Mate Pads also allow nursing staff to easily roll residents closer to the bedside.

BENEFITS

- Creates Safer Environment for Patients At-Risk
- For Use with Low Beds
- Easy to Clean

FEATURES

- Assorted Sizes Available
- Standard or Sloped Design
- Non-Skid Covering Option
- Heavy Duty Vinyl Covering
- 2 Velcro Handles for Anchoring to Bed
