

Ultra•Form™ BARIATRIC MATTRESSES

Ultra•Form Standard
Bariatric Mattress

High Performance Support From the Bottom Up

The Ultra•Form Tri-Com Sleep Surface combines 3 layers of high-performance foams blending softness and support from the bottom up. Varying properties of softness and support within each layer provides consistent pressure reduction and patient comfort. Our unique design helps reduce the risk of pressure ulcer development and increases patient comfort. Available in 250 and 400 point density foam, this product offers a specific level of support for weight ranges of 250 to 400 pounds and 401 to 600 pounds.

The UltraSoft nylon cover with specialized Fluid Resistant Coating is soft and flexible. flame retardant, fluid-proof, anti-static, bacteria/fungal resistant and easy to clean.

BENEFITS

- Ideal for Low-to-Moderate Bariatric Patients
- Helps Reduce the Risk of Pressure Ulcer Development
- Increases Patient Comfort
- High Density Foam Designed for Progressive Weight Scale
- Easy to Clean

FEATURES

- Assorted Sizes Available
- Available with Non-Skid Bottom Surface for Added Safety
- 250 or 400 Point Density Foam
- 18 Month Warranty
- Made in the USA

Ultra•Form™ THERAPEUTIC MATTRESSES

Providing Pressure Relief AND Shear Reduction with IST™ Interface Surface Technology

Ultra•Form Therapeutic Mattresses are effective in the prevention and treatment of Stage 1 and 2 decubitus ulcers. With three distinct designs, the features and pricing meet the needs of all healthcare providers.

The Ultra•Form Elite model has five anatomically engineered support zones on the surface. Manufactured with the highest density IST foam core, it is proven to eliminate pressure, shearing forces, heat and moisture build-up. The foot zone features Ultra Plush SoftCel foam with unmatched plush/soft deep cushioning support and protection for the life of the product.

The Ultra•Form Select model also has five anatomically engineered support zones to respond to body contours, movement and weight shifts. Each zone utilizes the IST cell technology and are specific in size, shape and depth. Each cell interacts/moves with the body at every point of contact. Our unique Zone 5 foot section has hundreds of small cells that form a soft 6.25" deep cushion to protect the lower legs, ankles and sensitive heels.

The Ultra•Form Pre-Vent model has three distinct therapeutic supports zones for skin protection, support and comfort. Air channels surround each of the 450 individual cells to eliminate shearing forces.

BENEFITS

- High Density Foam Core Responds to Body Movement and Weight Shifts
- Helps Reduce the Risk of Pressure Ulcer Development
- Increases Patient Comfort
- Easy to Clean

FEATURES

- Assorted Sizes Available
- Various Added Options: Flame Barrier, Bolsters, Defined Parameter, Tan Bottom & Scoops
- 5 Year Warranty: Select & Pre-vent
- 7 Year Warranty: Elite
- Foam Combustion Meets CAL TB 117
- Made in the USA

- 16 CFR 1633
- California Technical Bulletins #603, #121, #129 and BFD IX-11
- NFPA Life Safety Code 101

Ultra•Form™ COMFORT SLEEP

Varying Features to Match Your Budget & Patient Needs

The Ultra•Form Comfort Sleep mattress assortment offers far more than the 'basic' healthcare mattress. We offer premium healthcare sleep surfaces with varying features to match the demands of your budget and patient needs.

The Ultra•Form Comfort Gold Series features three anatomically engineered 'comfort zones' to support and protect the body's shapely frame and sensitive skin. These zones deliver a balance of softness and support to provide vital low-pressure therapy and prevents shear forces. The UltraSoft Cover has a specialized fluid resistant health care coating, flame-resistant, bacteria/fungal resistant and has a low moisture vapor transmission rater (MVTR). Also available with side rails, the firm foam structure allows for safe bed side-sitting, patient transfers and increased edge/side support.

The Ultra•Form Convolved Series is a lower cost alternative to the 'basic' healthcare mattress. Constructed of a high-density convoluted foam core, it provides outstanding support, comfort and pressure reduction.

BENEFITS

- Unique Design & Soft Cover Protect Skin Integrity
- Increases Patient Comfort
- Anatomic Comfort Zones Deliver Balance of Softness & Support Providing Vital Low-Pressure Therapy
- Prevents Shear Forces
- Easy to Clean

FEATURES

- Assorted Sizes Available
- Bolsters & Side Rail Options
- UltraSoft Cover
- 7 Year Limited Warranty: Convolved Innerspring
- 5 Year Warranty: Comfort Gold & Convolved
- 1 Year Warranty: Economy
- Made in the USA
